

# Brady Wilkins

Hi, my name is Brady Wilkins. I am an information systems major with goals of doing data analysis in the mining industry.

**Technical Background:** I would say I'm semi-proficient with computers, I have years of experience with Office365, and I use it for schoolwork and personal projects.

**Non-technical Background:** I was born and raised in Reno NV, and I chose UNR so I could stay close to family and stay in a city I know. I am a member of the Mackey Muckers which is UNR's competition mining team where we practice and compete old mining techniques. With that same group of people we go explore abandoned mines and go camping. My music taste is a little odd, it's composed of Morgan Wallen (country), Marty Robbins (country), \$uicideBoy\$ (rap), Crankdat (EDM), NF (alt), and Kill Dyll (trap metal). My dream for my future is to own a piece of land in the middle of nowhere Nevada with my wife and kids raising livestock and working remote from there.
